The Local Government body plays a vital role in supporting the private sector, MSME's and Entrepreneurs through local economic development as a promoter, facilitator, broker of alliances, partner and advocate

LOCAL ECONOMIC DEVELOPMENT

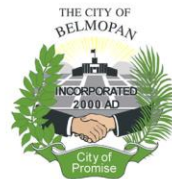

Working with you towards economic prosperity

City of Belmopan
2015-2020

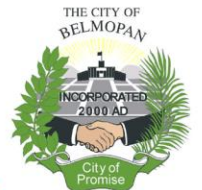

AS PARTNER AS ADVOCATE AS PROMOTER
AS BROKER OF ALLIANCES

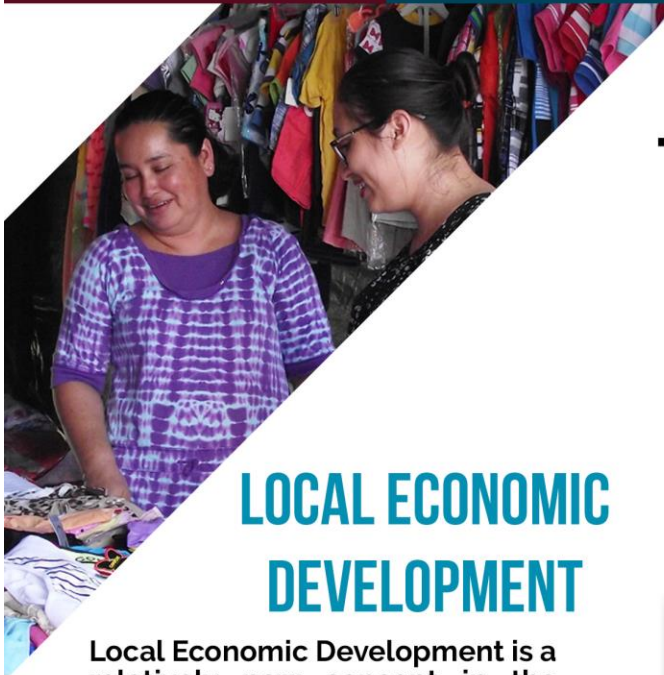

The LED Strategy is a working document developed by the Community of the City of Belmopan, The Belmopan City Council, undertaken with the financial support of the Government of Canada through Global Affairs Canada

Global Affairs Canada

Affaires mondiales Canada

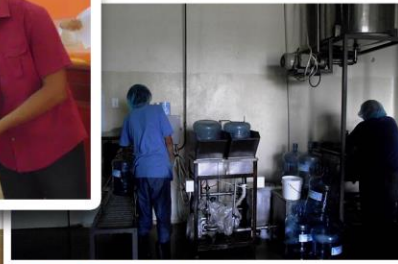

LOCAL ECONOMIC DEVELOPMENT

Local Economic Development is a relatively new concept in the Caribbean. It is a process where community stakeholders, the municipality, the private sector, the university, non-governmental institutions, and the public, work together to create better economic growth conditions, increase employment generation and enhance quality of life.

THE MUNICIPALITY WILL

- Encourage existing business
- Facilitate the development of business associations
- Attract new business ventures
- Provide services that assist the private sector and entrepreneurs
- Create a business friendly atmosphere
- Establish Public-Private Partnership

The LED Strategy has been developed as a five year action plan for the economic prosperity of our city.

“The Council plays a vital role in supporting businesses and fostering MSME start-up and expansion that can increase incomes and reduce unemployment.”

Mayor Khalid Belisle
